Name: Kaique Gabriel Heinen
Exercises English
Unity 8 – The history of e-mail

Page 59

1) **Learning activities**
Answer the follow questions:
   a) **What is email?**

   Email is simple messages to another person across the network.

   b) **How the @ symbol appeared?**

   Ray Tomlinson chose the symbol to tell which user was "at" computer.

   c) **What is ARPANET?**

   The advanced research projects agency network was an early packet-swiching network and the first network to implement the TCP/IP protocol suite.

2) **Elabore um pequeno dialogo em formato de e-mail, falando da importância do e-mail para atualidade.**

-Hi girl how are you?

- Hi beautiful friend. It's all right. And with you?

-I am fine

Are you still taking the software residency course?

-Yes I am. I am learning a lot in English.

-I'm happy for you, friend.

-Today I studied about the history of the email. Do you know the story?

-Do not know

- I'll tell you a little. Email came in 1971, a long time ago. Email is basically text messaging between two computers, but each computer needs to have a user, this user is a login that uses the @ symbol.

Even today email is very important in our lives, advancing many processes.

Friend, I'll have to leave, then we talk, kisses.

-Bye see you later.
